FLAGS • BEACHFLAGS • BANNERS • DISPLAY SYSTEMS • FLATBED

○ FLAGS

Flags are used to express national pride and also advertise service or business effectively. We offer corporate flags, advertising flags, national flags, custom-made flags, hand-sewn flags or coat of arms flags. Flags are mainly printed digitally with dye sub, but screen printing method is also available.

Highest quality PVC material, with matt surface.

Application: floor advertising, exhibitions

○ FLATBED MATERIALS

● PVC FOAM WHITE

3 mm / 5 mm / 10 mm

Plates made out of foamed PVC, designed for various applications in advertising industry. They are light-weight and UV resistant. Print on both sides is possible on either 3 mm or 5 mm thick plates.

Size of plate: 203 x 305 cm

Application: signs, stands, display systems

● CHANNEL PLATE WHITE

3 mm / 5 mm / 10 mm

Due to their structure, channel plates are similar to cardboard, but more stiff and durable. They are light-weight and resistant to UV exposure. Print is possible on one side only.

Size of plates: 200 x 300 cm

Application: signs, boards, display systems

● ALU BOND WHITE

MATT / GLOSS 3 mm

The main advantages of aluminium plates are stiffness, smooth surface and high UV resistance. Plates have matt surface on one side and glossy surface on the other. By default, the prints are made on the matt side. Print on both sides is possible on request.

Max. size of plates: 150 x 405 cm

Application: signs, stands, display systems

○ ECO MATERIALS

● ECO AIR POLYGLANS 115 g/m² B1

Used in production of flags, including beachflags, where durability and resistance to harsh weather conditions is a top priority. This provides 100 % legibility of the printed design on both sides of the textile (mirror effect)

Application: flags, beachflags, indoor and outdoor banners

● ECO POLYGLANS 115 g/m² B1

Used for the production of high-quality promotional articles. It characterizes with almost 100 % legibility of a printed design on both sides of the fabric (mirror effect). The yarn is made of recycled PET bottles

Application: flags, beachflags, indoor and outdoor banners

● ECO DECOR 215 g/m² B1

Intended for single-sided prints. Used for producing high quality promotional media displayed both indoors (boutiques, shops, showrooms, expositions, shop windows) and outdoors. The yarn is made of recycled PET bottles.

Application: aluminum frames, display systems, indoor and outdoor banners, double sided flags
